## The Broken Vow. [ro \* \* \* \*.]

BY WILLIAM T. G. WEAVER. I met thee to adore thee As I did in other days, When thy beauty shone before me, And my lips declared its praise; When thy smiling eyes watched o'er me, With a mild yet losing gaze.

We met, and still I loved thee, Though a barrier rose between Ay, I read it in their mein, Yes thy brilliant beauty moved me, Still my heart declares the queen

Thou wert plighted to another, Yet I spoke of our first love-Frail heart ! it could not emother What proud honor did reprove Thou would'st " love me as a brother,"

I knew that I must leave thee, Nor behold thy face again, But thy smile could then deseive me, And beseech me to remain ; Yet I dared not long believe thee, Though I tremisled to disdain.

These sweet lips that on a person led Mine have breathed another love. And with life's bright prospects latted, In the world alone I rove. With youth's charished dreams o'ershadels And no deaver hope above.

Oft in sleep I muse about the With a dream-love undefined; Waking, I can scarcely doubt thee, Thou hast been so fond and kind, But I still must roam without thee, Wrecked in happiness and mind Alton, August 9, 1856.

## Editorial Correspondences

ferent Candidates-Politics, &c.

ELARKSVILLE, Texas, Aug 2d, 1856. Dear Herald:-I have scarcely anything worthy of note to communicate since my last.

This place has improved but little since my last visit. The Methodists are building a large and combly less than that at Dallas. Most of the merchants years from Shreveport and Gaines' Landing. The river has been down except at intervals for the whole of that time. Two crops of cotton have thus been kept from the market except such as succeeded in getting their crops down the river on flat boats. The consequence is an unusual depression and stringency in money matters. Everybody complains of hard times. Many of the most substantial farmers of the county are unable to pay their debts until they can get their cotton to market and sell it. All, however, have enough to live upon. Besides the present crop, which is an average one, many have a sufficiency of old corn to last another year. The cotton crop was suffering for rain until a few days since, when we were favore! by a good season which will save the crop.

On Thursday night last this neighborhood was visever witnessed. For two hours there was a continued deafning peals of thunder that seemed to shake the very foundations of the earth. The lightning struck in many places in the neighborhood, but did no seri- certain costume is prescribed for the ceremony ous damage except at Mr. James Ritchie's, about a of introduction to the Queen; and no one gether under the same roof. The barn was struck by the storm. The ethereal spark is supposed to have been communicated to some of the combustitle material about the premises, and the whole building, when discovered, was wrapt in a sheet of flame. Nothing was saved; the barn, cribs, stables, grainery, corn, folder, wheat and farming uteasils, together with amount to \$1,200 or \$1,500.

The examination of the pupils at M'Kenzie's Institute, three miles West of this place, commenced on Monday and closed on Thursday last. This is the most flourishing as well as one of the oldest literary institutions in the State. It has a just and wide-spread celebrity, not only in Texas but in all the surrounding states, as is sufficiently attested by the goodly number of students from other states, in which Arkansas, Louisians. Alabama and the civilized Indian tribes on the isiana, Alabama and the civilized Indian tribes on the shows herself to be, behaved with characteristic a few hours. Traffic arrangements are also need Red River, were well represented. #### Raising the Atlantic's Safe. CHATAUQUE Co., N. Y., July 5, 1853.

According to promise I send you a statenent of the facts in relation to the raising of by collision with the propeller Ogdenhurg in 1852, three miles off Long Point, in 170 feet of water. We arrived on the ground on the 10th of June; spent one day sounding the wreck and getting our vessel moored; on the 18th made the first dive, landed upon her upfield, the words, and groves if it is to be seen per deck near her quarter. At the eight dive was opposite the stateroom that contained the safe. The rest of the time, until the 15th. I was busy in breaking in the window and the guards. On the fifteenth dive I got a line first to the lid, but found the hole too small to took a saw with me and sawed through the eighteenth I made my line fast to one of the end rings, and it was hauled up. It is needless to say that all stories of seeing a "beautiful lady," etc., are all fulse, as it was dark at 80 feet, and all the work done there was felt out. The apparatus used was a Wells & Gowan air pump, from Boston, with one manufactured and owned by M. Quigley. The armor was a common rubber one, and not protected by copper, as stated. I suffered no inconvenience rom the pressure except in two or three instances, when thy head-piece seemed to be actual circumstances which occurred, to say filled with bright electric sparks-or, in other words, "saw stars." When this eccurred, I E P. HARRINGTON

BROOK'S CANES .- A Washington letter writer says-Mr. Brooks's name is serving a good purpose to the tra lesman. In passing by THE WAR SPIRIT .- It will be a hard job a shop the other day, I saw a large placard at the top and tapering down to three quaters at the ferrule. "Them's the sort," said he:

The following impressive inscription

WE POLK D THEM WE PIERCE'D THEM WELL BUCK THEM
